### EASTERN DATES TO MARCH 30.

### EASTERN STATES.

New York News.

NEW YORK, March 30.—Intelligence from Philadelphia reports the arrest of Charles H. Dana, about 2 o'clock last night, while in a sleeping-car berth on the train coming from Washington to New York. The arrest is said to have been made on a criminal warrant at the suit of William A. Kemble and Samuel H. Moore of Philadelphia, for alleged libel arising out of strictures of the New York *Sun* upon frauds. Dana was taken in charge by the officers.

Carl Vogt, the alleged murderer of a Brussels nobleman, has been identified by former residents of Cologne as Carl Stupp, business manager of the murdered man. A telegram was received stating that there was evidence that Stupp sailed from Liverpool under the name of Vogt.

Professor Morse is unconscious. His death is hourly expected.

NEW YORK, March 30.—At Jersey City to-day action was deferred in the cases of the convicted City Board of Police Commissioners and Chief of Police, on the ground of there being other indictments against some of the defendants it would be expedient to await the trials of the same.

The reported indictment of ex-District Attorney Courtney by a U. S. grand jury, is wholly without foundation. This statement is made on the authority of Judge Noah Davis, United States Attorney. Courtney appeared in Court this morning and demanded to be informed when and where any indictment had been found, and was informed that none had been found. There is a statement that Gen. Butler and Custom House officials were endeavoring to secure indictments against Courtney and Macy.

It appears from testimony before the Judiciary Committee that nearly 200 of the very lowest criminals have been released at various times from Blackwell's Island by Judges Cardoza and Barnard in violation of the forms of law.

The *World* says, editorially, that it is well understood that Gen. Sickles is to be retired from the Spanish Mission.

Henry R. Conklin, Secretary of the Exploded Market Savings Bank, is reported to have been arrested in Montreal on Tuesday by detectives from this city, and is now in prison to await proof of right to arrest him under the extradition laws.

NEW YORK, March 29.—A dispatch hence this morning regarding the burning of the *City of Galveston* was greatly exaggerated. Probably the damage to the vessel and cargo is $30,000.

It appears that the tale of a mysterious order of arrest involving ... a ... person, and ... a mere ... in which a good deal is at stake.

Twelve cases of smallpox and three deaths are reported. The Board has resolved to continue free vaccination.

The *Tribune* will to-morrow publish a letter addressed to Colonel William M. Grosvenor, Chairman of the Executive Committee of the Liberal Republican Convention of Missouri, signed by Horace Greeley, Henry R. Sheldon, F. A. Conkling, Wm. Dorsheimer, Sinclair, Tousey and about a dozen other Republicans, expressing concurrence in the principles lately set forth by the Liberal Republicans of Missouri, declaring their belief that the time has come when general amnesty for past political offenses should be granted; that Federal taxation should be imposed and so adjusted as to lighten the burden on the industry of the country; further, civil service should be so reformed as to relieve political action from official patronage; that the right of local self-government, the foundation of American freedom, should be restored, and the encroachment of Federal power ... and that a special duty rests upon the people to do away with corruption in office.

Miscellaneous.

PHILADELPHIA, March 29.—... Weakless & Smith's spice mills, on ... street, above Arch. The stock and machinery, valued at $5,000, were almost a total loss. The building was owned by the firm, and valued at $30,000.

BOSTON, March 29.—The fire this forenoon, on Norfolk Avenue, destroyed the entire building belonging to Hudson, Deyer & Co., with the contents, consisting of stock and machinery, valued at $120,000; insured. Forty men were employed in the building, who barely escaped alive.

ALEXANDRIA, Va., March 31.—A fire in Warrentown last night destroyed the Warrentown Hotel and five adjoining buildings. Loss, $80,000.

CHICAGO, March 30.—August Smith, a boy 14 years old, was run over and killed last night by a street car.

Ex-Commissioner Walker, of Wisconsin, died suddenly at Milwaukee last evening, of apoplexy.

BROOKLYN, March 29.—The small-pox hospital is crowded to overflowing.

Political Intelligence.

NEW HAVEN, March 29.—Both the Republicans and Democrats express confidence in their ability to elect their Governor on Monday by the popular vote, and to carry both branches of the Legislature. A canvass of the Republican State Committee shows a fair gain over their vote of last year, and they say indications are more favorable than a year since. They estimate the Temperance vote at less than 500. Gov. Jewell's election is estimated by Republicans generally by from five to ten thousand majority, if a full vote is polled; and a loss of one or perhaps two Republican Senators is anticipated.

NEW ORLEANS, March 30.—The Speaker of the House, and now acting Governor, Brewster, made a speech last night favoring the renomination of Grant and acknowledging the Packard Committee as the legal head of the party in this State. He stated he regarded Gov. Warmouth as now being without the pale of the Republican party, having distinctly read himself out of it. He opposes the renomination or re-election of Warmouth. Brewster's action creates a stir among Republicans.

### WASHINGTON CITY.

Miscellaneous News.

WASHINGTON, March 29.—The Secretary of the Treasury to-day telegraphed to the Collector of Customs at Brownsville, Texas, revoking the order previously given forbidding the clearance of vessels with goods from that port to any point north along the Mexican border. This matter was discussed in the Cabinet to-day, and a telegram was sent after the Secretary after he came from the meeting.

Several Democratic members of Congress request the publication of the following, as regards the statement recently telegraphed from this city: That, at a consultation here of prominent Democrats with Mr. Belmont, opposition to Judge Davis was expressed, is without foundation whatever. The subject of preference of candidates was not discussed or referred to.

William Orton, the Postmaster General and General Myer were again before the Committee on Appropriations to day, and had a hearing on the subject of an appropriation for paying the expenses of telegraphing the reports of the Signal Service. Hon. William Whitney, Assistant Attorney General, represented the interests of the Government, and will continue the investigation of the subject next Monday.

WASHINGTON, March 30.—The following comparative statement of the estimated receipts and expenditures of Great Britain and the United States for the fiscal year ending June, 1873, has been prepared at the Treasury Department: Receipts of Great Britain, $362,516,000; receipts of United States, $389,000,000; expenditures of Great Britain, $345,334,000; expenditures of the United States, $239,826,454; public debt of Great Britain, $2,353,404,600; public debt of United States, $2,192,380,962.

The following have been appointed Assistant Assessors of Internal Revenue: George W. Sterns and J. H. Wentworth, Fourth District of California.

Thomas R. Moseby is appointed Tobacco Inspector for the First District of California.

### MEXICO.

Revolutionists Defeated.

NEW ORLEANS, March 29.—A Matamoras courier extraordinary from Comargo, with dates to the 27th, affirms the reoccupation of Zacatecas, the defeat of the revolutionists and the probable capture of General Guerero. General Cortina is cut off from his base and hemmed in near Paquars, State of Nueva Leone, after the loss of the greater part of his forces.

### BY ATLANTIC CABLE.

Explosion in Cornwall.

LONDON, March 30.—Information has been received of a shocking accident in Cornwall. An explosion occurred in a fuse manufactory, where a number of females were employed, causing a sad loss of life. Seven women were killed and several others seriously injured. It is feared some of them may not survive.

### ARIZONA.

Indian War.

LOS ANGELES, March 30.—The Arizona *Miner* of the 23d, has the following summary of Indian doings: During the week the Indians killed a Mexican within sight of Camp Verde, and robbed the citizens of Williamson valley. Several bands threaten to attack and capture Camp Verde. The situation of settlers around Prescott is now dangerous, if not pitiable. Savages are hovering around the settlements in large numbers, and the military are so tied up by recent orders from Washington that they dare not go out, no matter what may be done.

Cheenbery Bros. have again taken charge of Vulture mine, Wickenburg. Confidence is again restored.

### CALIFORNIA.

From San Francisco.

SAN FRANCISCO, March 30.—The fact that the Panama railroad has passed out of the control of the English company into the hands of the Directors of the Pacific Mail Steamship Company, is regarded here as very favorable to San Francisco. It is believed that the rates of freight and passage will be reduced.

The final order in the settlement of the title to the estate of Los Mariposas, made in the Twelfth District Court, Mark W. Brummagin is directed to deed the estate in full to John W. Brummagin, acting for the new Mariposa company, on payment of $800,000 in currency.

Wells, Fargo & Co. say their loss by robbery of the stage between Mineral Hill and Palisades, yesterday, was very slight, as they never send any large amount of treasure over that line without an armed guard. There was none on the stage this time. The amount taken from passengers was also, they think, quite small.

The form of the fourth page of the *Examiner*, containing all of the legal advertisements, was pied to-day by a collision in the street.

Dickson, the hackman, convicted of rape upon Catherine O'Hara, when called up for sentence in the Municipal Court to-day, moved through his counsel for a postponement of sentence, on the ground that on the last day of the trial they had received an anonymous letter professing to make certain revelations which would tend to acquittal or a new trial, and he desired to have time to hunt up the witnesses. The Court said the law contemplated granting time where evidence had been newly discovered, which must be shown by affidavit. He saw no such facts in this case, but if the counsel wished to make such affidavits he would let the case stand over till 2 P. M. Sentence was afterward postponed until Thursday next, to allow his counsel every possible chance to hunt up fresh testimony, if any can be found, to support an application for a new trial.

A Chinese burglar was caught in Crane & Brigham's wholesale drug store, on Front street, this morning, with a box of opium valued at a small fortune, which he was in the act of packing off.

Serano, the native Californian who stabbed and killed Charles Taylor, another convict from Los Angeles, in the State Prison, on Thursday evening was convicted of murder in Sonoma county, and sentenced to death, but his sentence was commuted to imprisonment for thirty years. Both men were working in the shoe shop.

Stocks firm, with heavy transactions.

Arrived—Steamer *Prince Alfred*, from Victoria, with $108,774 in gold dust and coin. She also carried a small number of passengers.

A formal charge of extracting illegal fees was preferred against Sheriff Adams by Joseph Riley, in the Fifteenth District Court, to-day, and citation issued requiring him to show cause on Saturday next why he should not be deprived of his office.

The steamer *Great Republic* for China will not sail until the arrival of the *Constitution* from Panama, which may not be for several days yet.

The steamer *Constitution*, now due, if on schedule time, from Panama, will probably touch at Acapulco, and in that case may not reach here before the latter part of next week.

Thirty thousand five hundred and ninety shares of stock were sold in the Board to-day at its session.

### INTERIOR CALIFORNIA DISPATCHES.

Earthquake and Loss of Life.

VISALIA, March 30.—We learn the following particulars of the great earthquake in Owens River Valley from private letters received this evening:

At Independence one man was killed and many persons more or less injured. Many buildings were badly strained and cracked, and chimneys and walls were thrown down. Among the buildings thrown down were the Exchange, Court House, Harrison's store, and John Rhodes's residence. It is estimated that over two hundred buildings were thrown down in all. Not an adobe or brick building is supposed to have escaped destruction. Throughout the county of Inyo, up to Wednesday morning, fully one thousand distinct shocks were felt. At Tibbitts' ranch, fifteen miles from Independence, about forty acres of ground sank about seven feet below the surface of the country. Owens Lake has risen four feet since the first shock, and Owens river ran over its banks, depositing shoals of fish on the shore.

Through Lone Pine the earth cracked; one portion remained stationary, while the balance sank seven or eight feet, leaving a wall of earth extending over miles in length where formerly was a level plain. Innumerable cracks were made throughout the valley. Kiner and Owens river turned and ran up stream for several minutes, leaving their beds dry.

Further Particulars.

VISALIA, March 30.—From Colonel Whipple, who just arrived from Lone Pine, we learn the following particulars of a terrible earthquake which visited that section on the 26th instant:

About half-past two o'clock in the morning the inhabitants of Lone Pine were awakened by an explosion, followed by a terrible upheaving and shaking of the earth from south to north. Col. Whipple, who was in the second story of an adobe house, states that he had just time to jump from his bed and get away when the house appeared to crumble to pieces beneath him. He was buried among the ruins, but succeeded in extricating himself from the debris, suffering from several painful but not dangerous wounds. The scene which ensued is beyond description. Groans and screams were heard in all directions. Nearly the whole population of the town were buried beneath the ruins. Cries for help and screams of pain from the wounded filled the air, while those who escaped from the ruins were calling for help to rescue fathers, brothers, wives and children. The first shock was followed in quick succession by three others. Over three hundred distinct shocks were felt between half past two o'clock and sunrise; in fact, the earth was in a constant shake and tremble. For over three hours a chasm was opened extending thirty five miles down the valley, ranging from three inches to forty feet in width. Rocks were torn from their places and hurled down into the valley everywhere. Through the valley are seen evidences of the terrible convulsion of nature.

Cerro Gordo was badly damaged. Many buildings were badly cracked, and some few thrown down. No persons were badly injured. The Swansea works were totally destroyed. Buildings all down to the ground, and the walls thrown down. The superintendent of Swansea sent twenty men to Lone Pine and sixteen were sent from Cerro Gordo to assist in extricating bodies from the ruins.

All accounts agree in placing Lone Pine over the center of the commotion. Before each shock could be heard an explosion occurred, which sounded immediately beneath the feet. Over 600 distinct shocks were felt within 55 hours after the first. There is much destitution among the inhabitants of Lone Pine and vicinity, many having lost all but life. Col. Whipple was selected to proceed to San Francisco for the purpose of securing aid for the destitute.

Several distinct shocks were felt in this city last night, and are still coming from the south east. Persons anticipate the trending of immense chasms in the mountains to the east of us, as soon as the snow disappears enough to admit investigation in the vicinity of Mount Whitney. Residents describe the explosions as of a dull, heavy sound of a cannon fired immediately beneath their feet, which run along the mountain range north and south until lost in the distance. Rumors of a volcano in active operation being seen from the summit of Green Hood Mountain, sixty miles south-east of here, are in circulation, but their authenticity is considered at least dubious. Indians in the vicinity have all left, fearing the reoccurrence of a general convulsion of nature, which, according to tradition, occurred some hundreds of years ago, and created what is now known as Owens river valley, but what was before a chain of mountains.

List of Killed and Wounded.

VISALIA, March 30.—The following is a list of killed and wounded: Killed—Jules Madelan, aged 45 years, native of France; G. Gooslyn, aged 40, California; Louisa Mutinger, infant; Alice Mayson, aged 10, California; Francisco Lopez, aged 35, Mexico; Jose Maria Kavilla, aged 50, Mexico; J. Montaria, aged 60, France; Miss Lucy, aged 35, Islands; Lorenzo Mesa, 64, Mexico; Jno. D. Ybesia, aged 42, Chili; Mirla Cerdok Terracon, aged 22, Mexico; Dolores Terracon, California; Louis Torracion and infant, California; Tenasday Laperto, aged 60, Chili; Mr. Gray, aged 42, Texas.

Injured—T. Austin; Baddie Gardner, Mr. Burchadt, Mrs. Burhadt, Mr. McCall, Miss McCall, R. A. Loomis, D. P. Carter, Miss Lambert, Mrs. N. Reddy, C. Cohen, Mrs. Josie Alins, Mrs. Califf, Lt. Col. Whipple, J. Madind Burton, J. Jourls, G. Prancire, M. E. Gullup and three children, T. B. Larrien, F. Murphy, Andrew Lunas, P. Corventus, S. Monez, L. Parisca, J. Cordoba, R. Lanacon.

Stage Robbers Sentenced.

SACRAMENTO, March 30.—William Cullen and J. K. Grost, convicted of stage robbery, were each sentenced to seven years in the Penitentiary.

### BY STATE TELEGRAPH.

Accident at Albany.

ALBANY, March 30.—Frank Wilson, brakeman on a gravel train, had his left foot crushed to a jelly while attempting to get on the forward part of a locomotive while in motion. Doctors Rice and Alexander were called and dressed the wound. It is not known whether amputation will be necessary or not.

### MISCELLANEOUS NOTES.

What else had he a right to expect? Gen. S. Cooper, who resigned the Adjutant Generalship of the United States army to join the Confederate army in our late civil war, is now living in want in Virginia, at the age of seventy years. A proposal has been made to raise a fund for his relief.

The average expense of students of the classes of 1870 and 1871 in Yale College was a trifle over $1,000, and the range $250 to $2,500. That extra cypher on the cash spent will no doubt add an extra cypher to the community where the young spendthrift finally settles down. Of all the nuisances a profligate, profuse, college bummer is the most detestable. Yet the young ladies are apt to think him "naught but so nice."

The best thing in the way of a historical curiosity which they can get up in Indiana is a dilapidated old silver watch once belonged to General Harrison. "Old Tip" lost his time piece some seventy years ago. In 1818 the outside case was found, and the inside case some twelve years ago. The works, or what remained of them undevoured by rust, were discovered in 1868, and now the parts have all been collected together at Indianapolis.

Jersey City (N. J.) during the rule of Tammany, was one of the outposts of that model Democratic dynasty. One hundred and eighty-three indictments have been found against its officials. The corruption and thieving of these officials were equal in their smaller field to those of their Tammany masters. The Cincinnati Convention intends to form a combination with the party which produced such results as these, in order to reform and purify the Government!

Berks county, Pennsylvania, has for many years given its regular seven thousand Democratic majority. It is the stronghold of Democracy in that great State. The *Eagle*, the organ of Democratic Berks, declares that the party there will not support any "soft" candidate. In an article on the "sacred right of bolting," it says plainly that the Berks Democracy will never consent to the possum policy, and if concessions of the kind are asked at its hands by the National Convention, the county will surely go for Grant.

### THE TERRITORIES.

Now comes the *Register* of Vancouver and claims that they have had an earthquake at that place. If so be, these "shakes" are coming uncomfortably near.

The dealers in whisky at Pumphrey's Landing, it is said, have been selling without license and the officers are preparing to "go for them." They are eight or ten in number.

Marshal Blinn is about to establish two ice houses, one at Seattle and one at Olympia, to be filled with ice from Sitka, whither a vessel has already, we understand, been dispatched for the first cargo.

Seven thousand Santee, Yanktonai, Cut-head, and Teton Sioux have collected at the Milk River Agency (Fort Browning). The severity of the winter, a scarcity of buffalo and Government supplies, render their condition one of extreme want. Measures, however, have been adopted for their immediate relief, and probably no trouble will be had with these dusky warriors. The main body of Teton Sioux are encamped near Fort Peck, and as to whether they can be restrained from the war path the coming summer, is a matter of some doubt at the Indian office.

### GENERAL NOTES AND NEWS.

It is said that Col. Forney can be either Postmaster General or Secretary of the Navy, just as he prefers.

Mr. Seward has promised to deliver the address at the inauguration of the Lincoln Monument at Springfield, Ill.

Man and wife in Russia always own their property separately, and instances of wives suing their husbands for debt are by no means uncommon.

The life long, but, for France, over-ardent Republican, Blanqui, when asked at his recent trial where his usual residence was, replied, "My usual residence! I am usually in prison."

Prof. Julius Silversmith has invented a process of making copper type by a cold pressure, more durable than the present type, and is about to start an establishment for its manufacture.

The Boston *Advertiser* says: "The verdict of New Hampshire is for the Administration and against those who oppose it, and every New England State will give a like verdict when their time comes."

The Lowell *Courier* says: "Vice President Colfax says the happiest days of his life were when he was a printer. Come to our office, Schuyler, and you shall have the old family joy at 25 cents a thousand."

Proof kerosene—that which will not ignite at a temperature under 110 degrees—is a measurably safe article when handled with care. The explosive quality of the oil is owing to the presence of naphtha, one of the most dangerous substances known to the arts.

On the 22d March the Emperor William of Germany completed his 75th year. There was no formal court celebration, but the Emperor received large numbers of persons who presented congratulations. The city was decorated during the day, and brilliantly illuminated at night.

## LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

### EASTERN STATES.

New York News.

NEW YORK, March 30.—The *World* to-day expresses surprise at the invitation of the committee of the Convention calling upon voters without distinction of party to unite with them. It says while Democrats are ready to co-operate with reformers, yet it is absurd to think they are to abandon their organization by fusing with elements which might absorb them. It would advise the Democrats not to give much favor to the Cincinnati movement, because by so doing the movement might suffer the loss of ... of its Republican ... While we have ... said, it says, to attach much importance to the Cincinnati movement, we will do nothing whatever to embarrass it in any manner. The Democratic National Convention will not be held until some time subsequent to May 1st, and if the Cincinnati Convention should prove to be an independent body with strong Republican backings, it is quite possible we may adopt its ticket, but we must also contemplate the possibility of its being a fizzle. The Democratic party resolutely refuses to commit its fortunes and prospects to this doubtful experiment. We shall reserve our organization and maintain our party discipline, and if we should take up a Cincinnati candidate we should do it strongly and not as a straggling band of disorganized voters.

Storm at St. Louis.

ST. LOUIS, March 30.—A severe thunder storm passed over this city at 8 o'clock this evening. During the storm a tornado from the southwest struck the Centre Market House on 7th street, a large brick structure, and leveled the northern half to the ground in a twinkling. Most of the roof and ... very heavy ... were carried across 7th street, ... fronts out of several ... Although the market was crowded with people, so far as ... only six persons were injured, ... and 20 or 30 slightly. Two of the ... will ... die.

The Cincinnati Convention.

CINCINNATI, March 30.—The Committee of Arrangements for the National Convention, May 1st, have perfected arrangements with nearly all the railroads to carry persons to and from the Convention at about half regular rates. The arrangement will be made public in a few days.

The Senate Postoffice Committee, in reference to the Pacific mail subsidy appropriation, agreed to an amendment to the bill proposing a 10 years' contract, with semi-monthly trips. The San Francisco Collectorship.

Charles Washburne is seeking the San Francisco Collectorship, but has no chance. There is no prospect at present of any change in that or other important Federal offices. The effort to oust Wooster from the Marine Hospital and appoint Lowe is progressing. The result is doubtful, but the chances favor Lane, who is backed by San Francisco.

The House Committee will report an appropriation of $75,000 for a light house and fog signal at Point Fermin.

The Interior Department has issued an order allowing the taking of testimony in mineral land cases before county clerks.

The Alabama Question.

There is an absolute dead lock regarding the *Alabama* question. The American Government persists in its determination of maintaining the case hitherto proposed. Indian Affairs under Gen. Crook.

The report that Gen. Crook suspended operations against the hostile Apaches in Arizona in consequence of the arrival of Gen. Howard, is not credited. It is officially asserted that Gen. Howard is sent out as a general inspector, not as an army officer, and is not to interfere with Crook's Indian policy. Crook's plans are approved by the War Department, and if his campaign movements are restricted, it will be from a lack of funds, the appropriation for the current fiscal year being nearly exhausted and a new appropriation not being available until July 1st.

### CALIFORNIA.

From San Francisco.

SAN FRANCISCO, March 31.—There are now 24,420 signatures of citizens of San Francisco to a memorial to Congress against the cession of Yerba Buena Island to the railroad. The sheets have been bound in book form and will be forwarded by express to Washington to morrow.

There was a fine shower last night, and to day has been, without exception, the most beautiful day of the season—cloudless, calm and perfectly lovely.

Rev. J. H. Hemphill was formally installed pastor of the Calvary Presbyterian Church today, a very large audience being in attendance and the exercises very interesting and impressive. The church was elaborately decorated with flowers, as also were all the leading churches of the city, both Protestant and Catholic, this being Easter Sunday.

Miguel Saio, convicted in Monterey on three indictments for housebreaking, and sentenced to 12 years at San Quentin, was brought here this evening, en route.

The Chinaman who was shot through the arm and leg while in the act of crawling through a hole he and his pal had last night cut through the wall of Liddle & Keating's gun store, on Washington street, below Montgomery, is not mortally wounded. It has transpired that Liddel fired the shot with a double barreled gun loaded with bullets. The store had been repeatedly entered and Liddel was laying for burglars inside, while the police were watching outside.

T. H. Allen, said to be recently from Kansas, suicided this morning, at his room No. 315 Fifth street, by shooting himself through the head with a pistol. No cause is yet ascertained. He was about 45 years of age, and an American.

Friends of Engineer Schmitt say the Lake Tahoe Water Company's enterprise will be carried through in spite of the failure to secure the contract with the city, and favorable legislation, the requisite funds being offered if the terms are accepted.

### INTERIOR CALIFORNIA DISPATCHES.

STOCKTON, March 31.—A mass meeting was held last night to nominate candidates for city offices. The following are the nominations made: Mayor, Thos. Hook; Aldermen, William English, John S. Davis, H. Hubbard, R. C. Thrift, T. B. Buck, L. L. Crouch, and James McLean; Collector, J. Sleiny; Assessor, J. S. Ladd; ... A. Galle, and Messrs. C... , Newhall, Smith, and Ernest, School Trustees. The ticket, with few exceptions, is generally admitted to be weak.

F. Kahn was stopped by footpads on Center street last night, and his money demanded. On his refusal he was fired at, the ball not taking effect, but the powder badly burned his face. The robbers fled.

### OREGON.

A municipal election will take place in Eugene City to-day.

Two hundred and twenty-one students have attended the Wallamet University at Salem during the past year.

Bishop Morris of the Episcopal Church has called a Missionary Convocation at Oregon City on the 5th, 6th and 7th days of April.

Rev. J. L. Parrish informs us that the son of Rev. Jason Lee, referred to in our ... of March 19th, was born on the 24th or 25th of June, 1838, instead of January of that year.

At the County Convention at Lafayette, last Saturday, the Democracy refused to indorse the doctrines of the "vital eighth resolution" of two years ago. Eternal principles, you know!

The Salem *Star* ... says: "Rev. J. L. Parrish ... to donate a full block of lots in North Salem as a site for the Deaf and Dumb School. The block ... is 330 by 370, and worth about $2,000."

The *West Side* says: "Every available man, boy, horse and mule that can be employed plowing is busily engaged. The present is the first chance for doing much with the ground since November, and every nerve is strained to improve the time."

Grand Master B. L. Bristow, I. O. O. F., has issued a dispensation to all lodges subordinate to the jurisdiction of Oregon, empowering them to appear in regalia and emblems of the Order on the 26th of April, 1872, and ... appropriately celebrate the fifty-third anniversary of the Order.

The boarding school for deaf mutes, at Salem, under the charge and direction of Professor Smith, is meeting with flattering success. An exhibition given by the school a few days since, according to the *Statesman*, showed marked progress in the attainment of knowledge by those unfortunates.

Says the Corvallis *Gazette*: "The farmers are very busy just now. From two to six teams are seen at work on almost every farm. A greater breadth of grain will be sown this season, in this county, than ever before. The fall sowing of wheat and oats look well, the grass is excellent and farmers are ... for the future."

The Salem *Statesman* says, speaking of the operations of the Lookout Mountain Mining Company of the Santiam District, that arrangements have been made to send out a large force at an early day, and the work will be pushed vigorously forward. A smelting machine will also be erected very soon, and all necessary implements for its full development will soon be put forward. Prospects are very flattering, and the incorporators are confident of ultimate success.

### Reasons for the Continued Ascendency of the Republican Party

The national administration has opponents but it is noteworthy how few of those who oppose Grant are willing to be counted out of the Republican party It is well said that this is a recognition of the necessity for the welfare of the country that the Republican party be kept in power It indicates a strong and ever present fear of the consequences of putting the Democratic party in power No matter how many complications may arise in the coming contest that contest will be in reality between the old Republican and old Democratic parties No party really new can be formed because such a party would consist mainly of old Democratic elements and would take its character from them Party names are nothing Parties in their general cast and character are founded upon and represent profound tendencies in human nature Behind the doctrines they put forth and the professions they make are the dispositions of mind that inspire them A party therefore cannot at once change its character it cannot undergo any sudden and miraculous transformation It cannot be to-day greatly different from what it was yesterday The Democratic party cannot change its nature and its tendencies simply by offering a new set of resolutions as a platform Hence it is that party, in spite of all its fair professions, is just as dangerous to the peace and safety of the country as it has ever been

It may be worth while to examine what would probably be the results of a Democratic accession to power. As it would occur under leaders who have long acted under the retrograde influence of the party its recent professions of accepting the situation and the constitutional amendments and all that would go for nothing The habit of their thought and policy as a contemporary observes, would lag behind their present profession, even were that profession honest and not forced upon them by stress of circumstances The great questions of public policy then would be treated rather from the old than the new Democratic stand point But granting that they believe all they confess how would their accession to power affect the whole country? What would be the effect of a Democratic triumph next fall on the disturbed South? Can there be a doubt that the sight of the defenders and excusers of Kukluxism in power would set loose again all those lawless elements which have already kept the South back There can be no question as to the effect of such an event upon the condition of the newly enfranchised blacks Take another subject, on which all the wisdom of all our statesmen is needed to prevent the most calamitous results, our finances and revenue What would become of our national credit with a party in power to which attaches the endorsement of all manner of fanciful schemes for a paper money basis, repudiation and the like? In reference to our own material and commercial prosperity it is enough to hint at the confusion and tumult [illegible] the application of Democratic ideas to our tariff and revenue Nor have there yet appeared in the Democratic manifestoes any signs of a foreign policy of such superior wisdom as to deserve to supersede the quiet peaceful and dignified course the government under Republican direction, is now pursuing On the other hand the eagerness of opposition has led them into assertions and positions which if maintained by any party in control would lead to trouble

Hence it is that there is a well-grounded fear of the danger that would be run into by allowing the Democratic party, under any [illegible] whatever, to get into power In our own State, its utterances have been especially revolutionary In its Conventions and Legislature it has declared for doctrines that, if adopted, would at once unsettle the country and lead to calamitous results To prove this we have only to instance the repudiation doctrines of its last platform and its declarations in the Legislature against the [illegible] of the war In its State policy it has not commended itself by its [illegible] of legislation it has enriched speculators and party favorites at the expense of the State All the principal acts of the last session of the Legislature are proof of this, and for these acts it has to answer to the people of Oregon

### The Wayward "Tribune"

In the "Cincinnati movement," which seeks Democratic co-operation for the purpose of overthrowing the Republican party, there is a strong free trade element In fact, free-trade is one of its cardinal ideas The Secretary of this "side show" is one Wm M Grosvenor, a rampant free trader—a hired agent of the free-trade league, receiving a large salary, paid in that coin which Mr Horace Greeley has so frequently denounced as "British gold" To this gentleman Mr Greeley writes that he approves the objects aimed at by the aforesaid side show But from the Tribune of the 16th March we quote this, "Of course, we shall ask to be counted out if the majority shall decide to make Free Trade a plank in their platform. The protection of Home Industry is of more importance, in our view, than the success of any party or ticket If it should be decided to make Free Trade a [illegible] of the Cincinnati movement we ask only that we be not insulted by the assumption that any possible selection of candidates could reconcile us to that decision." It [illegible] where Mr Greeley is going to "bring up." He is all adrift, —he who has lectured us all so much on the sin of bolting, and on the crime of infidelity to party And this is what a squabble about a few petty offices comes to!

The Chicago Times the leader of the Democracy of the great Middle States is not happy It speaks of the "moral" which the defeat in New Hampshire affords and says "This moral is embodied in the obvious deduction that the Democratic party alone stands no shadow of a chance to prevent the re-election of Grant. The most hopelessly pig-headed Bourbon in the party must now recognize the fact that the Democratic candidate for President could not carry more than one-third of the electoral vote" So the Times wants its party to accept the "Labor Reform" candidate

The Farmer states that it does not contend that the Legislature can "fix passenger and freight tariff on the lines of travel now established" It says that what it does want is legislation on the canal and locks at Oregon City which will establish competition with present steamboat and railroad lines All right. Let us have it The last Legislature or those who engineered the locks bill through that body were more intent on making a "grab" than on serving the State Hence the need of additional legislation

### A Crushing Answer

We [illegible] the Herald [illegible] particular attention [illegible] the following which we take from the [illegible] It is a crushing answer to the Herald's statements concerning the locks at Wallamet falls and proves that $75 000 were wasted in the appropriation for that enterprise by corrupt favoritism

The editor of the Herald may be an excellent expounder of the Scriptures but he is not altogether happy in his dogmatic remarks on the Oregon City canal lock and lam swindle To show just what we mean we will have to quote a little

> A company entirely sound and responsible offered to do the work (constructing the locks at the falls of the Wallamet) for a subsidy of one hundred and twenty five thousand dollars —Oregonian
>
> No company ever offered to do such a work as is now provided for by law and is now in process of construction at the falls of the Wallamet for the sum of one hundred and twenty five thousand dollars. We deny your allegation and defy you to the proof The issue is made meet it or back out —Herald

Now that's flat isn't it? We undertake nevertheless to say not only that the Oregonian was entirely correct but that the Herald was entirely wrong—ignorantly perhaps perversely certainly We suppose that the P T Company will be acknowledged to have been an entirely sound and responsible company That company did offer to do the work for $125,000 And it did offer to do just "such work as is now provided for by law" The proof

When the bill which finally became a law was pending it was referred to a special committee Through that committee to the Legislature the P T Company made an authoritative offer in writing as follows

> The People's Transportation Company propose and have submitted a bill to that effect proposing, to construct said locks on the east side of the Wallamet river at Oregon City, capable of transferring all boats now or hereafter navigating the Wallamet or Columbia river, for the sum of *one hundred and twenty five thousand dollars, gold coin* To secure all fulfillment of contract, have offered and still offer to enter into bonds in such sum as the Legislature may direct, with ample security, to the entire satisfaction of the Governor or Legislature
>
> *We stand ready to make the offer good*, if the bill now before the House can be so modified as *to change the bill allowing the subsidy to be given to the "People's Transportation Company" in lieu of the "Wallamet Falls Canal and Lock Company"*
>
> The bill submitted by our company proposes to pay quarterly into the Treasury of the State ten per cent of the net proceeds, which according to the tonnage of the boats now controlled and run by said company, paying toll to the State, would refund the total sum granted as aid in a period of [illegible] years, without any increase of business whatever.
>
> All we ask is fair and honorable competition and think that it is but just and right to ourselves, and to the people of this State, that we should have the right to compete for the construction of said locks, under legislative restrictions
>
> (Signed) A A McCULLY
> President P T Co

The above proposition was submitted in writing, and we have copied from the original Mr McCully and other officers of the company are willing to state under oath that they made the offer verbally, to take the exact terms of the bill and do the work for $125,000 What small hole will the bold blusterer of the Herald now seek to go through?

The most calamitous earthquake that ever occurred in any part of the United States is reported in to-day's dispatches to have taken place last week in Inyo county Cal Names of a large number of persons who perished are given The Owen's river country where this earthquake took place lies in the eastern part of California rather below the center of the State It is in the mountainous region of the Sierra Nevada Such an earthquake, should it occur in San Francisco, as it is liable to do, would be as terrible a disaster as the earthquake at Lisbon in 1755

### TRANSPORTATION OF PETROLEUM.

#### NEW INSTRUCTIONS FROM THE TREASURY DEPARTMENT

Much inconvenience and embarrassment have resulted from the inhibitions of the new law relative to the transportation of petroleum The following letters relieving the embargo on this article upon the Columbia river route, have just been received:

PORT TOWNSEND, W T, March 25, 1872

SIR —I am in receipt of a telegram from the Secretary of the Treasury, under date of the 21st inst, which says that refined petroleum which will not ignite under one hundred and ten degrees, may be carried on the routes of the Oregon Steam Navigation Company, under Rule fifty six of the Steamboat Regulations, in pursuance of the Act of February 28 1871

I will thank you to give suitable notice of this decision to those interested

I am very respectfully yours,
RUFUS LEIGHTON,
Special Agent Treasury Department
To Collector of Customs, Portland

TREASURY DEPARTMENT,
Washington D C, March 13 1872

SIR —I am in receipt of the letter of J C Ainsworth, President of the Oregon Steam Navigation Company, relative to the transportation of Coal Oil and Petroleum, referred by you to this Department, with a request for information concerning the subject mentioned therein

It appears that the passenger steamers of the Company are the only means of conveyance from Portland to all that portion of country east of the Cascade mountains there being no sailing vessels on the Columbia river and no road for wagon transportation

Mr Ainsworth complains that the Inspectors of the District will not allow his boats to carry Petroleum or Coal Oil, and that in consequence the inhabitants will be entirely deprived of the use of those articles, or be forced to ship via Pacific railroad to Kelton, and thence overland, at great cost to the consumer

In reply, you are informed that the Board of Supervising Inspectors have adopted a Rule (LVI) permitting refined petroleum, which will not ignite at a temperature less than 110 degrees Fahrenheit, to be carried on passenger steamers upon the guards or forward main deck thereof, at a safe distance from any fire, on routes where there is no other practical method of transportation The rule further prescribes that the petroleum shall be securely put up in metallic cases or vessels, and carefully packed in boxes or in iron bound casks or barrels, and that such casks or barrels shall be plainly marked upon the heads with the manufacturer's name, the name of the article, and the degree of temperature, Fahrenheit, at which the petroleum will ignite, and be placed upon the outer edge of the guards and decks, as above mentioned

Section 4 of the steamboat act, approved February 28, 1871, prohibit the transportation as freight on any steamer *carrying passengers* of Naptha, Benzine Benzole, Coal Oil, Crude or Refined Petroleum, or "like dangerous articles"

Section 5 allows them to be carried on *freight* steamers, if packed in the manner prescribed in that section

A violation of the law will subject the owners of the vessel to a fine of five hundred dollars under the 1st and 63th sections of the act cited but no seizure can be made of the article unlawfully shipped although the vessel may be seized and proceeded against as provided in section I

Inspectors have been instructed that a reasonable construction should be given to the words, "practical (practicable) route" used in the act, and rule cited and that the carrying on passenger steamers of petroleum of the kind indicated in section 4 of the statute (i e, which will not ignite at a temperature less than 110° ) and put up and marked in the manner specified in Rule LVI, should not be treated as ground for a prosecution, provided that transportation to the place of destination otherwise than by such boats would involve several transfers and in consequence great expense or loss by leakage

From Mr Ainsworth's letter it appears that there is no "practicable" means in the locality mentioned, except by passenger steamers If there be no other the inspectors should allow such steamers to transport the petroleum, subject to the restrictions above referred to

Very respectfully,
GEO S BOUTWELL,
Secretary

The Montana Herald's Blackfoot correspondent gives the following account of the doings of the Blackfeet and other Indians "A few days since a fight occurred in the Piegan camp a few miles below here, on the Teton in which fight four Indians were killed and one fatally wounded Mountain Chief (head chief of the Piegans) was among the slain and his oldest son mortally wounded An Indian well known by the whites in this part of the country by the name of Napa was also killed Gilpatrick and Jack Wade white men and Cut lip Jack Pete Cobel and Baptiste Musha half breeds have lately been killed by Indians in the same vicinity"

### OREGON

Some of the delegates in the Benton county Democratic Convention, in order to secure the nomination of their favorite for County Treasurer, "stuffed the ballot box."

Orders have been given Mr C A Reed, of Salem, by Messrs Corbitt & Macleay of Portland to paint a picture of Mount Hood The painting will be 4x6 feet and the product will be the finest piece of Oregon scenery ever placed upon canvas

A correspondent of the Farmer says Oregon's yield of wheat for 1871 was but a fraction over 19 bushels per acre, while Massachusetts with her poorer soils and patchy farms, turns out over 16 bushels per acre Oregon receives for her crop of 1871 an average of 93 cents per bushel, while the Massachusetts farmers receive $1 75 for their crop of 1871 This shows the difference of good farming as well as the advantage of a good market

### A German View

Following is a translation of a portion of an article that appeared in the *Oregon Deutsche Zeitung* of Saturday

During the past week we had the doubtful honor of being complimented by the Herald, it proved anything but acceptable to us, as it could only have been the result of a misunderstanding on the part of that paper. In our article devoted to the "Temperance Question" we condemned the "Good Templars" and their consorts on account of their efforts to force a prohibition law upon us While we resist the enactment of such laws because they are imperious at variance with individual freedom and an offspring of intolerance we are at the same time bitterly opposed to the existence of the "grog shops," where men are tutored in all the various vices and esteem it a duty on all good government to suppress them

The Herald and its party also contend against the passage of prohibitory laws But what motive have they? Certainly not one based upon high moral considerations The mob—the scum of mankind who constitute the vast majority of those who frequent, support and make their headquarters at these hotbeds of iniquity form an important element in the Democratic ranks and without whose aid that party could not exist This class are hostile to any measures which might deprive them of their favorite haunts and would be equally so to any party which would advocate their suppression, and in order to retain so constituent a part of its strength the Democratic party look with disfavor upon every law which might rid us from the law—detestable "whisky mills"

Our last article appeared prior to the meeting of the Republican State Convention, since then a platform of the Republican party has been adopted, containing a paragraph looking to the suppression of these poison dispensations, but it does not conflict with individual freedom and is in no way to be accredited to the demands of the "Good Templars" We, in connection with the majority of the Germans deem this paragraph in the Republican platform a good one

The Connecticut election takes place to-day (Monday) It will be close work For years in that State the two parties have been making a see saw game of it, now one up and now the other Last year the Republicans carried the State by 103 majority in a total vote of 94,860 The vote to day will probably exceed 100,000, and the majority will not be many hundreds either way

In the New Hampshire Senate the Republicans have four majority in the House, sixty-three majority

## DIED.

In this city, on Saturday evening of pneumonia, Louis Goodman aged 38 years

[Mr Goodman was a native of Marchingen Baden and came to America eighteen years ago He had resided 12 years in Oregon and had been ten years in business in this State chiefly in Portland. He had recently gone into business at Junction in Lane county Few of our business men were better known and none more universally esteemed His death was sudden and most unexpected he having been remarkably hale and vigorous through his whole life He leaves a wife and three children ]

[illegible] COMPLIMENT —Mr Wilbur F Cornell, the present foreman of the *Herald*, was made the recipient of a handsome and costly present by his brother craftsmen on last Saturday. The compliment was very substantial, being nothing less than a costly gold chain of the value of $36. The chain was of fine work [illegible] and consisted of eleven links, on the first of which was engraved the name "Wilbur Cornell, from"— Then follows in regular rotation on the ten remaining links the names of the donors Mr. Cornell was taken entirely by surprise and the present was as unexpected as it was agreeable. Mr. [illegible] of the *Chronicle*, made the presentation [illegible] It was briefly and neatly responded to by the beneficiary Mr Cornell is one of the most [illegible] and practical "typos" in the State, besides being a very reliable gentleman in his business and social relations. The present [illegible] the respect and esteem in which he is held, and inspired in the minds of his fellow [illegible]

[illegible] DELEGATES.—On Saturday evening, [illegible] of Multnomah county held their [illegible] meetings. The meetings were for the [illegible] delegates from the precincts to the County Convention, which convenes in this city next Saturday. Delegates as follows [illegible] from Portland and East Portland

North Portland—A T Davis Leon Vial A [illegible] T Ryan, — Mills J Mayer and H [illegible]

[illegible] AND PLANK ROAD —Joseph Knott has [illegible] the authorities of Clarke county, W T. [illegible] to run a ferry on the Columbia [illegible] from Vancouver to the Oregon shore If [illegible] be successful it is thought that [illegible] will be given to the project of building a plank road from the Oregon terminus of the ferry to East Portland—a very commendable [illegible] and the completion of which is very [illegible]

[illegible] —A thoughtless teamster drove a span of overheated horses into the river at the foot of Stark street, on yesterday and allowed them to drink their fill. The result was, that one was so badly foundered that it fell in the water, unable to rise After much delay the animal was relieved from its watery bed, but not until the harness was stripped off. Moral—A careless fellow should not be entrusted with the care of a pair of valuable horses.

Steamship *Ajax* will sail for San Francisco from this port this evening at 6 o clock

At St Helens the river is about four feet above low water mark and the water is slowly subsiding

Col William H Farrar, one of Portland's early Mayors, is now residing in Washington City

The plaza concert will be repeated on Wednesday evening from 5 to 6 o clock weather permitting

Cargo of the *Ajax* was being discharged yesterday owing to the want of time and press of freight

Immense quantities of freight are being shipped to the Dalles and Walla Walla by the O S N Co 's boats

Fresh peas are appearing in great abundance in the markets They taste very strongly of silver—or words to that effect

W H Watkinds, a noted gentleman from the Penitentiary at Salem, was mixing round on Saturday in Democratic circles here

Late yesterday evening the steamship Ajax was hauled across the river to the railroad depot to receive a portion of her return cargo

Pile driving for the extension of the O S N Co 's wharf, has reached a point about half way between the two wharves, and is being pushed rapidly

A grand opening ball will be given at the new Masonic Hall on Wednesday evening next, under the auspices of Willamette Hose Company No. 1

The State Horticultural Society will hold an adjourned meeting in this city on Thursday, 4th inst The object is to make arrangements for a Fair in June.

Judge Upton goes down the river this morning to St. Helens. He will hold a term of Circuit Court for Columbia county, commencing to morrow morning.

Any quantity of bunting was floating yesterday over the O S N Co 's steamers It was not a picnic excursion but was only in respect to the fact that it was a beautiful day

Since the arrival of the *Ajax*, the merchants and the dry goods dealers are crowded with their spring invoices, and sidewalks are greatly contracted in their [illegible] limits

"Shyster" Newby of San Francisco is in the city It is said that he proposes to 'locate' here and "practice law" Now let that nondescript animal [illegible] the "go-or" beware!

J. H. Reed, Esq, of this city, had a severe fall at Jacksonville a few days since He broke a rib by the accident Starting for this city on the stage, before he was aware of the extent of his injuries, he was compelled to return

Oro Fino Theater will be reopened this evening. The new season will commence with the delightful drama of "Wind Works Wonders" Manager Waldron has been fortunate in his [illegible] here, and has met with a very fair measure of [illegible]

A new revenue steam propeller is to be built by order of the Treasury Department, for general use on the Pacific coast Copies of plans etc, have been received at the Custom House in this city, which will be distributed to such persons as may apply for them with a view of submitting bids

The *Herald* seems to be trying to persuade itself that there is danger that the High School of the city will be abolished The whole talk to that effect has been made by one or two individuals, who have asserted that somebody was in favor of such a step The alarm is fictitious and imaginary

Capt. Crandall of the *St[illegible]*, was in the city yesterday, and gave us the benefit of a few minutes "interview" The Captain is infusing some of the "immortal fires of youth" into his paper, and will be likely to make it particularly interesting to the "Passiveites" before the campaign is over.

### THE LECTURE SEASON.

To the Editor of the Oregonian

SIR, A person signing himself "A Friend of the People" has several times appeared in the local columns of the *Herald*, venting his opinions about lectures and [illegible]. The [illegible] of that [illegible] had [illegible] the [illegible] thoughts, the [illegible] and even the ill-chosen nom de plume, exhibiting his overweening vanity But the gentlemanly local of that sheet ought scarcely to have endured that a shallow pat [illegible], with no capacity or judgment, should publicly insult three clergymen and three lawyers in standing and influence infinitely above him, and who have given their services gratuitously to these societies Heaven help the "people" who have no better 'friend" than the scribbler, whose ignorance is as palpable as his coarseness, whose judgment is as warped as his feelings are low, whose love of notoriety is equal to his boorishness, [illegible] in glorying in his shame It is to be hoped that neither Dr Marsh nor Mr Simpson, who are still to lecture for the Young Men's Christian Association, will be influenced by the puerile statements of a [illegible] "Friend of the People," but come and enlighten that "intellectual nuisance"—if not in his understanding at least in his manners JUSTICE

Portland, March 31, 1872

COMING BACK —We are in receipt of a letter from Major M. P Berry, ex Superintendent of the Penitentiary, in which he states that he has been relieved from the Superintendency of the Fort Hall Indian Reservation, owing to the distribution of the agencies among the various churches A few days subsequent to the date of the letter, he expected to be en route for Oregon, where he expected to arrive about the first of April The Major speaks in commendable terms of Utah and the city of the Saints Says that Utah possesses great natural resources in the way of valuable gold silver, copper, iron and coal mines, which offered a great field for the safe investment of capital, mining operations in that Territory for a few years would be immense Except in favored localities agriculture was not a success, principally for the want of the requisite amount of moisture. Without agriculture as a basis, there could never be permanent prosperity The coming season gave flattering prospects for immense influx of strangers from abroad but would doubtless result in ruined enterprises and bitter disappointments In conclusion he asserted that Oregon, undeveloped, in comparison with Utah undeveloped, presented as marked a contrast as the former and bleak, dreary Alaska

COAL —Under date of Seattle, W T, March 20th we are in receipt of the subjoined letter

Why is Portland without coal? I have noticed that wood has commanded almost fabulous prices during the past winter especially while the cold weather lasted Most every other place is able to furnish its own coal It is not because there is none to be had this side of the Columbia [the writer does not indicate which side of the river] nor that there is no capital to invest in coal mines Men who profess to be competent judges are too apt to call every thing black by the name of coal" The writer here proceeds to add that he knows where there is a well defined seam of coal seven feet thick, located within less than three miles from navigable waters It could be taken from the river and delivered on the dock at Portland for less than $5 50 per ton, leaving a fair margin for profit The mine is situated on vacant land, or what is more favorable for mining enterprises, on rail road land The writer, after making such an astounding revelation fails to tell the anxious enquirer where this valuable spot of *illahee* can be discovered

MUSIC IN THE PLAZA.—The Portland Brass Band, under the leadership of Professor John Cordes, on Saturday evening gave the first matinee at the Plaza since the departure of the Twenty third Infantry Band The concert commenced at 5 o'clock A large crowd of ladies and gentlemen were in attendance to enjoy both the fine weather and the music The programme consisted of eleven pieces, and considering all the disadvantages under which this new musical organization labors, the music was quite creditable It is the intention of the band to discourse music twice a week at the Plaza if our citizens manifest a willingness to contribute means towards this object The musicians cannot afford to play for nothing A very small sum given every week by the business citizens of Portland would create a sum large enough to justify the band in devoting time to practice, and to attain a desirable degree of proficiency This proposition to furnish the city with music should meet with prompt encouragement

### WASHINGTON CO PLANK ROAD

REPORT OF THE PRELIMINARY SURVEY

PORTLAND, OGN., March 29, 1872

JACOB STITZEL, ESQ, President Portland and Washington County Plank Road Company—*Sir* In accordance with instructions received from the committee appointed by the Portland and Washington County Plank Road Company to engage an engineer to make the preliminary surveys for the proposed plank road from Portland to Hillsboro and Centerville in Washington county I have the honor to submit the following

My instructions were to survey a line from Portland to Hillsboro commencing at the intersection of Jefferson and Thirteenth streets and follow the Canyon road as closely as possible, only diverging therefrom when easier grades and shorter distances could be obtained. I was also instructed to survey a line from Centerville to Portland through the Cornell Pass, and also a line connecting the two commencing at a point on the line to Hillsboro by the Canyon Road where it intersects the base line These lines have been surveyed and the accompanying plat and profile will show the distance and direction of the lines run and the elevations of a portion of the line by the Canyon road route

The first line surveyed commences at the intersection of Jefferson and Thirteenth streets and follows the Canyon road to the point marked A on the plat Here the line leaves the old road a short distance to the north and connects with it again at the point marked B Following the old road to the point marked C the line again leaves the road a short distance to the north and connects with it at D From D the line follows the road until E is reached, when it again deviates until the point marked F at or near Elliot's farm is reached Following along the road until the westerly line of White's farm is reached the line takes almost a due north course to the base line and thence along the base line to Hillsboro a distance of 19 miles 4 340 feet

By referring to the profile it will be seen that the difference in level between the base of the mountain, a short distance from the starting point, and the head of the canyon, is 576 feet This will give an average grade of 232 feet to the mile or a grade of 1 in 23 This grade of course, cannot be distributed equally along the line without incurring a very heavy expense nor is there any necessity for it Consequently there will be places in the line which will exceed the grade of 1 in 23 The heaviest grade encountered before the summit of the mountain is reached is in the second mile Here, for a distance of about 3,000 feet the grade is about 1 in 14 This, however, can be reduced by changing the direction of the line

In descending the mountain the grade is somewhat easier with one or two exceptions, which can easily be improved

As the country beyond Kennedy's is comparatively level, and as the survey was merely preliminary, it was not considered necessary to carry the line of levels any further than this point The level was therefore dispensed with, and the profile only shows the levels over the mountain by the Canyon Road route.

In surveying the Cornell Pass route the section line 2 miles north of the base line was followed from Centerville for a distance of seven miles and 2,400 feet From thence the line runs almost in a direct course to Jones saw mill where it connects with the road and follows the same to the center line of E street in Portland The distance from Centerville to Portland by this line is 19 miles and 5,063 feet

In examining the comparative merits of the two routes, and taking into consideration matters which are naturally associated with the construction of the road and its business when constructed, but which do not come within my province to discuss here, I do not hesitate to pronounce the Canyon Road route by far the more practicable of the two The elevation of the Cornell Pass is about 100 feet greater than the elevation of the summit on the Canyon Road To overcome this elevation a great deal of heavy grading would be encountered, and in order to avoid the sharp curves which now exist in the road, it would necessitate the construction of quite a number of expensive bridges It is estimated that it will cost at least 50 per cent more to build the road on the Cornell Pass route than by the Canyon Road Moreover, the liability of the road being obstructed in the winter season by land slides and falling trees is much greater than on the other line, which is a very important item to be considered in the successful working of the ground

I do not know as it is necessary to allude to anything further in this report In this preliminary survey the lines run are merely trial lines, to be changed and improved at the option of the company when the final location is made. When this is done a careful and complete survey should be made and sufficient data obtained to make an accurate estimate of the cost of constructing the road. Very respectfully,

CHAS F BROWN

### MUSIC IN OUR PUBLIC SCHOOLS.

To the Editor of The Oregonian

SIR—A visit to the Central Grammar School, on Friday last, to witness the closing exercises of the term, convinced me of the great necessity and incalculable importance of having the children of our public schools well trained in music and thoroughly drilled in the exercises necessarily connected with such instruction.

There is nothing more joyful than to hear children, well trained in music, singing in concert the beautiful songs, hymns and choruses that are so admirably adapted, in the present day, for the young

Fifteen or twenty minutes devoted to music every day, in each of the grades of our public schools, by a competent leader, requiring from such a leader about four hours of his time each day, would do more to make these schools attractive to the pupils refine and elevate their tastes, diffuse happiness in the home circle, and add to the popularity of the public schools, than any single act that the Directors of the Board of Education could devise or accomplish

No reasonable amount of money spent for any one object in connection with the cause of popular education would give half the satisfaction and enjoyment that such a course would call forth from teachers, children, parents and the public

In a very short time each of the public schools could have a concert once a month, on a Saturday afternoon to be held in the largest room of the building, where all the children of the school could assemble and the parents of the children invited to attend free of charge

Once a quarter on a Saturday afternoon a concert could be given in one of the large halls in the city, comprising the musical talent of the public schools, open to the pupils of all those schools free. The public to pay a small sum, say twenty five cents each, the proceeds to go to aid some of our benevolent institutions, such as the Orphan's Home These concerts properly managed would be of inconceivable service in promoting a taste for music and social enjoyment among the young be a source of great joy to parents and considerable attraction to the public There are probably a number of gentlemen in the city qualified for such a position as musical teacher for our public schools So far as I know or can form an opinion Professor McGibeny would be preeminently the right man in the right place If the Directors of the Board of Education entertain the suggestion favorably, they could get a very good sample of the Professor's fitness for the position by attending the "Praise Meeting in Rev. Dr Atkinson's church on Sunday evening next at 7½ o'clock, the musical department of which will be conducted by Professor McGibeny

I make these suggestions at this time as the friends of our public schools will meet this evening to elect two Directors to fill vacancies in the Board of education, with the view that the subject may be discussed and receive the attention that its importance merits

If our public schools were well organized and efficiently superintended competent teachers appointed and well paid the Directors men of large liberal and patriotic views our public school system will keep abreast of the times, be a blessing to the rising generation and an honor to the State

A FRIEND TO THE YOUNG

MOUNT HOOD —We understand that Messrs Corbitt & Macleay of this city have given orders to the artist, C A Reed, Esq, of Salem, to paint a picture of this noted peak Dimensions of the painting are to be four by six feet As the acknowledged taste and skill of this painter is so well known, it will be no hazard to predict, that when finished it will be one of the finest pieces of Oregon scenery ever placed upon canvass

BRIDGE ACROSS THE WALLAMET —On the authority of a telegraphic dispatch received from Col W W Chapman now in Washington City it is stated that the money for building the bridge across the Wallamet, at Portland has been at last secured and that he would bring the plans, specifications etc along with him He requested that the time for filing the same be extended for sixty days

TAXES —Up to date Sheriff James has collected taxes aggregating $116 000 The State, county and school taxes for the county amount to about $157 000 This would leave a balance due of $41 000

A REMARKABLE CURE OF PALSY

WM BURDEN, A STOCK RAISER OF WILLOW CREEK, WASCO COUNTY, OREGON, LOST THE USE OF HIS LEFT ARM BY PALSY WAS CURED IN TEN MINUTES BY DR. ABORN CORNER THIRD AND MORRISON STREETS PORTLAND

To the Afflicted:—I wish to state that I lost the use of my left arm from my shoulder to the end of my fingers by a stroke of palsy I could not raise my hand or arm from my side, and was fearful that there was no cure for me My friends at the Dalles advised me to visit Portland and place myself under the care of Dr Aborn. I arrived in Portland last evening by the Dalles boat and immediately called at Dr Aborn's office and made my case known The Doctor commenced treatment at once and in ten minutes time to my great surprise and joy he performed a complete cure so that I now have the use of my arm hand and fingers and can raise my arm up over my head with as much ease as I can raise my right arm This certainly is a very remarkable cure and in my estimation speaks volumes to the skill of Dr Aborn I am stopping at the American Exchange Hotel, and will leave on the boat to-morrow for home I am a stock raiser and reside at Willow creek, Wasco county Oregon, eighty miles south of the Dalles

## Lo

I [illegible] on the p[illegible]
 A [illegible] tary [illegible]
A rude untutored [illegible]
 Of Nature and [illegible] was Lo

As I approached he seemed in pain
 He bent and doubled like a bow
I thought This savage is insane
 I said What is it ails thee Lo

He lifted up his eyes to mine
 And in their depths there shone a woe
He spoke in [illegible] feeble [illegible]
 Me sick I sympathized with Lo

A little [illegible] of an [illegible]
 [illegible]
[illegible]
 And [illegible] I over donated

 Drink this, I said 'twill warm you up
 Rejoicing on your way you ll go
He drank the full of a pint cup—
 "[illegible]" said Lo

The dusk of evening fell around,
 The wind more cold and chill did blow
The rum was drank, and on the ground
 We lay to sleep both I and Lo

Till morning slumber sealed my eyes
 I woke half covered up with snow
My boots were gone my hat likewise
 My limbs were stiff—but where was Lo

My mule and all my baggage gone
 It's strange said I where they could go
My blankets too which I laid on
 Have disappeared—but where is Lo

I sat down in the snow so cold
 And cogitated calm and slow
Truth dawned upon me I d been sold
 By that benighted heathen Lo

I want to meet him once again—
 That single solitary Crow—
I wish to see him once and then
 I ll try to square accounts with Lo

WASHINGTON BEAUTIES—A good deal is written from Washington about society s beauties There are some pretty women here but much of the praise buttered over pretty persons is merely maudlin Poor Madame Catacazy experienced the inconsistency of this wild laudation. When she first arrived, her photograph was in every window and whenever she attended a reception a circle of men and women [illegible] around her to see little Catacazy adjust her laces or throw her shawl over her shoulders The last seen of this unfortunate victim of female admiration was the afternoon before she left Washington when with her husband she rode down the avenue in a melancholy way with the golden sheen of her remarkable hair waving, and then, scarcely was her back turned when Washington boarding-house keepers and newspaper reporters were running over her boudoir and picking up shoestrings for *souvenirs* Relieved [illegible] some [illegible] embonpoint, the Madame was a cold-eyed, keen featured rather voluptuous, English blonde, who could get herself up in a [illegible] way, but was sometimes weary and faded looking, and, at home, was quite an ordinary [illegible] Love, which begins with an intrigue is therefore forced into a certain uneasy prominence, and [illegible] no longer than a good love Catacazy, deeply enamored of his wife is yet perpetually piqued that society is content with looking upon her but never wholly embraces her —*Washington Letter*

Sidney Smith cut the following from a newspaper, and preserved it for himself "when you rise in the morning, form a resolution to make the day a happy one to a fellow cr[illegible]. It is [illegible] [illegible] left-off garment to the man who needs it, a kind word to the [illegible]ful, an encouraging [illegible] to the striving [illegible] in themselves light as air—will do it at [illegible] for twenty four hours And if you are young, depend upon it it will tell when you are old, and if you are old rest [illegible] it will send you gently and happily down the stream of time to eternity By the [illegible] arithmetical sum, look at the result If you [illegible] one person, only one, happily through each day, that is three hun[illegible] and [illegible], five in the course of the year And supposing you live forty years only after you commence that course of medicine, you have made 14,600 beings happy, at all events, for a time."

The great accuracy with which differences of longitude can be ascertained by the magnetic telegraph is illustrated by some of the determinations for the United States Coast Survey Where the longitude were estimated by four different circuits, the greatest difference between any two determinations was twenty-eight thousandths of a second, equivalent to about thirty feet, the mean error being less than one millionth of the distance between the two objective points, which in [illegible], as in that between Cambridge and San Francisco, was 3 580 miles

Gov. Joel Parker, of New Jersey, does not [illegible] to accept the nomination for Vice President given him by the convention of labor reformers He has more points to consider than Justice Davis He is not a labor reformer first, and a Democrat contingently but a Democrat primarily and all the time When he accepts the nomination offered him it may be taken for a sign that that party proposes to accept the nominees of the Columbus convention, and to this end there must be a definite conclusion respecting the action of the Cincinnati convention

In the New York Custom House Investigation letters were produced by Gen. Porter showing that the President advised Leet not to go into the custom house, and that he urged upon Murphy and Grinnell to dismiss or refuse to appoint any man claiming consideration on account of relations with him These was wholly [illegible] by some [illegible] bers of the committee, and certain newspaper men who are [illegible] to misrepresent everything that occurs favorable to the President

Ten gallons of kerosene, three pounds of potash, one ounce of strychnine mixed with soft water It was according to this cheerful not to say convivial formula, that a quantity of "whisky" seized last week in Newton Mass, was compounded the recipe having also been found in the possession of the unfortunate dealer If you want gin, add [illegible] sufficient of oil of juniper! The mystery is that [illegible] who drank this diabolical fluid do not drop down stone dead at once

An old lady, brought up as a witness before a bench of magistrates, when asked to take off her bonnet, refused to do so, saying "There is no law compelling a woman to take off her bonnet 'Oh, said one of the magistrates, "you know the law do you? Perhaps you would like to come up here and teach us? 'No, thank you sir replied the old lady, "there are old women enough already

An English gamekeeper has recently broken a black sow to hunt game in the woods, and she is said to run in the hunt with wonderful [illegible] She will track game, back and stand and point partridges and pheasants snipes and rabbits as skilful as a bred pointer She bounds in response to a whistle and wags her head and squeals with delight on being shown a gun

A firm in Sheffield, England, have just succeeded in rolling the largest armor plates ever made The plates are intended to protect turrets of the great war ship *Devastation*, which is being built at Portsmouth Each plate weighs twenty four tons and measures twenty feet in length, nine feet in breadth and eight inches in thickness.

The *Ajax* is announced to sail for San Francisco on Monday evening at 4 o clock

The cargo of the *California* hence for Puget Sound on Friday consisted of about 360 tons, mostly Wheat and Flour

The remarkably good weather that has prevailed during the past fortnight has afforded unusually early and good opportunities for putting in the spring crops The result is that most of the farmers of the State will get [illegible] a full month earlier than they usually do It is often late April before much farm work can be done as frequently the weather does not permit seeding till the beginning of May The prevalence of good weather will enable farmers to get their seed into the ground and as it is early in the season sufficient rain may reasonably be expected to insure good crops. When the rains prevail till late in the spring it often happens that seeding is delayed; then dry weather ensues and the grain suffers more or less for rain An opportunity for early sowing this spring gives reason to expect that the grain will attain a vigorous growth before the dry season comes o

For two or three years the yield of Potatoes in Oregon has been scanty and poor This result has been largely owing to late planting and subsequent drouth Plant early this year; now is the time. Oregon has long been giving her Wheat for California Potatoes bushel for bushel The way to attain prosperity is to make use of all the means by which it can be reached. Within six miles of Portland there is land of unequaled richness, which is sufficient in area to produce all the vegetables that Oregon could consume. Yet this is neglected and we bring inferior vegetables at high prices from California No one will pretend that this is anything else than the most shocking economy

Comparative rates of freights and fares between Portland and different points through the Wallamet valley under the present railroad and steamboat management and under former modes of transportation are published by the *Bulletin* In most cases a reduction is shown in present rates as compared with those formerly existing and in some cases the reduction is very considerable

A very important enterprise to which we have heretofore alluded is about to go into operation at Oregon City This is the Wooden-Ware Factory of Messrs. Ben Holladay Jr, and J D Biles The machinery for the factory has all arrived and will be ready to run in about a week It has capacity for turning out six hundred buckets three hundred tubs assorted sizes, and five hundred washboards daily To supply this consumption about ten cords of Cedar bolts will be required each day Such establishments as this producing articles suited to our wants and giving employment to labor among us is what is needed to build up Oregon

### Produce Market

WHEAT—Market wholly quiet. Latest dispatches from San Francisco and Liverpool give no indication of improvement. The tendency is rather a shade lower The most that can be relied on in San Fr[illegible] is $1 90 ℔ cental

OATS—Somewhat stronger It is believed that a large area of land is being sown with Oats, and the call for seed will absorb about all remaining Market about $2 25 ℔ cental

WOOL—The steady rise of this staple is something extraordinary It is reported that parties at Walla Walla are now offering forty five cents for the whole clip of that region. Fifty cents has been offered at points up the Wallamet and in a few instances something more

RAIL-ROAD LANDS.

OFFICE OF LAND DEPARTMENT

Oregon and California R.R. Co. and European and Oregon Land Co

PORTLAND OREGON August 1 18 1

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms

The applicant filing in this office a claim in the form prescribed to wit

Pre-emption dato No ——

To the Land Agent of the European and Oregon Land Company

SIR You are hereby notified that I have settled upon and improved (description of land) in the county of —— State of Oregon containing —— acres and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the terms of [illegible] of the Directors of said Company adopted on the twenty sixth day of May A. D. 18 1 to the terms of which I hereby fully assent

Resolved That the parties settling upon and improving any of the lands of the European and Oregon Land Company before they are placed in market shall be entitled to the pre-emption privilege of purchase of the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company when brought into market provided such settlers shall file in the Land Office of said Company written application giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed notice thereof shall be sent by the Company's Land Agent through the Post Office [illegible] as may be convenient to the land the party claiming the pre-emption privilege [illegible] of the lands so purchased by the said party within sixty days [illegible] date of such notice the Company will be at liberty to sell the land to any other person,

(Name of applicant )

(Postoffice address )

When the application is received a certificate signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form

PRE-EMPTION CERTIFICATE, NO ——

This is to certify that —— of —— county State of Oregon has this day filed in this office a pre-emption claim to (description of premises) and is hereby entitled to the first privilege of purchasing said land at the Company's valuation; (which is to be made without reference to improvements) when the same shall be placed in market in accordance with a resolution of the Board of Directors of said Company adopted May 26 A D 1871

When the price of the above described land is fixed notice thereof will be sent to the party [illegible] Certificate is issued and if [illegible] land is not purchased by the said party as the holder hereof within sixty days [illegible] the date of said notice the Company will be at liberty to sell the land to any other person

(Signed) Land Agent of the E & O Land Co
